Here is Jon's personal statement:

"My motivation is to provide perceptive and valuable advice based on real world experience, to be as accessible as possible to my clients and to work with them through the highs and lows of their business journey. I endeavour to strike the right balance between my role as a key contributor to the development and management of the business whilst at the same time maintaining the objectivity and independence of a professional adviser. For me, the key thing is to be there when needed, to introduce a different perspective and to constantly strive to make a real difference."
